Beautiful spaces, curated with intention

DESIGN PARTNER PROGRAMME

*We built **By Kurators** for one reason: the world's best design studios deserve a partner who can open markets — and ensure that when their work lands, it is executed with the same care with which it was conceived.*

- **Dubai-based. MENA & East Africa reach.**
- **Design curation + project management — under one roof.**
- **Selective by design.** A small, considered roster. Not a directory.

CONTENTS

01 WHAT WE BRING TO YOUR PRACTICE

02 WHO WE WORK WITH

03 HOW THE PARTNERSHIP WORK

04 THE PEOPLE BEHIND BY KURATORS

WHAT WE BRING TO YOUR PRACTICE

01 Market access — UAE, MENA & East Africa

- We pitch your studio to qualified clients across the region
- No local office required. No years of relationship-building from scratch.

02 Business development — without the overhead

- We handle client introductions, brief development, and fee negotiations
- You focus on design. We handle everything that comes before it.

03 We are not a design firm — we never compete with you

- Your creative authority is always yours
- We exist to give your work an audience, not to overshadow it

04 Project Management Consultancy — on the ground

- We oversee delivery: contractors, procurement, site reviews
- Your design intent is protected from drawing to finished space

05 A vetted contractor & vendor network

- Pre-qualified trades and suppliers, built over years in the Gulf and East Africa.
- You will never be handed a referral list and left to navigate it alone

06 Pre-qualified clients — your time is respected

- Every introduction has been assessed for budget, seriousness, and design alignment
- No speculative pitches. No mismatched expectations.

07 Co-branded visibility across the region

- Featured in our credentials, marketing materials, and digital presence
- Access to residential, hospitality, and developer audiences

08 Cultural & commercial translation

- We understand how clients in the Gulf region make decisions and build trust.
- We bridge the gap between your process and their expectations

09 Fee protection & cross-border commercial support

- Local contract structures, payment terms, and invoicing — handled
- Working internationally should not come with financial uncertainty

10 Portfolio documentation

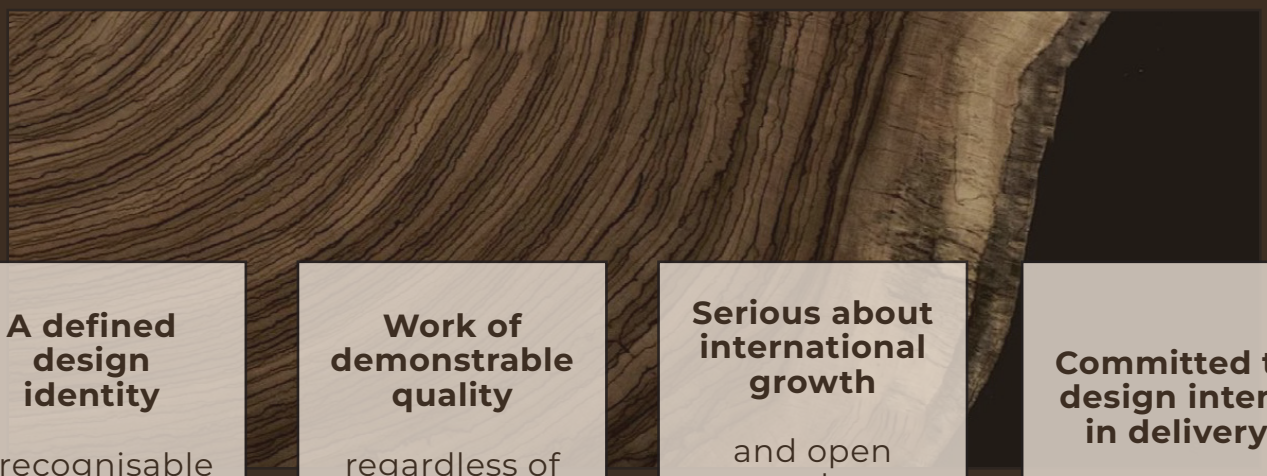
- Professional photography and case study material from every completed project
- Yours to use — for awards, press, and new business

11 A long-term pipeline, not a one-off introduction

- We maintain client relationships after project completion
- Successful projects generate referrals that return to the same design partner

WHO WE WORK WITH

Our roster is deliberately small. Every studio on it has been chosen with intent.



A defined design identity

a recognisable point of view, not just a portfolio

Work of demonstrable quality

regardless of geography, scale, or style

Serious about international growth

and open to the partnership that makes it possible

Committed to design intent in delivery

not just on paper

HOW THE PARTNERSHIP WORKS

By Kurators earns when you earn. Our model is aligned with your success — not charged upfront.

01 Introductory conversation
We learn about your practice and ambitions for the region

02 Mutual alignment
We share the clients and projects we're working on, and assess fit

03 Partnership agreement
Clear, simple, protecting both parties

04 Active representation
We begin pitching your studio to relevant opportunities

05 Project engagement
By Kurators activates full PMC and delivery support

THE PEOPLE BEHIND BY KURATORS

We founded By Kurators with a simple belief: the Gulf and East Africa deserves better access to the world's finest design thinking, and the world's finest designers deserve a trusted partner to deliver their work here without compromise.

PUNIT SHAH
Co-Founder

My background is in building things — literally.

- **Hotel construction & industrial development** — a career spent understanding how projects actually get built
- **Lumilife** — specification and delivery of complex lighting and automation systems

I know the gap between a drawing and a finished space. By Kurators exists to close it.

KHUSHI SHAH
Co-Founder

My career has been in design implementation — taking a vision and making sure it survives contact with reality.

- **Designsmith** — commercial and residential projects, focused on design implementation
- **I work at the stage most designers dread** — where paper decisions become on-site decisions
- **I know what it takes to protect a design through delivery.** That is what I bring to every project.

We are selective because we want to be.

Every studio we represent is one we believe in — and one we are willing to put our name behind in every room we walk into.
If that sounds like the kind of partnership you have been looking for, we would like to hear from you.
