Beautiful spaces, curated with intention

REFERRAL PARTNER PROGRAMME

Your client relationships are your business. The last thing you need is to recommend someone who lets you down.

By Kurators *exists to make sure that never happens. We are a design curation and project management consultancy based in Dubai, operating across the UAE, the Middle East, and East Africa. When you refer a client to us, you are not handing them off — you are adding value to the relationship you have already built.*

We handle the design process from start to finish: finding the right studio, managing the project on the ground, and ensuring the finished space reflects what was agreed. Your client is in good hands. And you stay in the picture.

CONTENTS

01 WHAT BY KURATORS DOES

02 WHY THIS WORKS FOR YOU

03 HOW A REFERRAL WORKS

04 WHO WE ARE

WHAT BY KURATORS DOES

01

Design Curation

We match clients to the right architecture or interior design firm

Curated roster of vetted studios — India and globally

We know the work, the people, and the process behind every studio we represent

02

Project Management Consultancy

We oversee delivery on the ground

Project oversight, contractor management, procurement, quality control

We ensure that construction aligns with the approved design

03

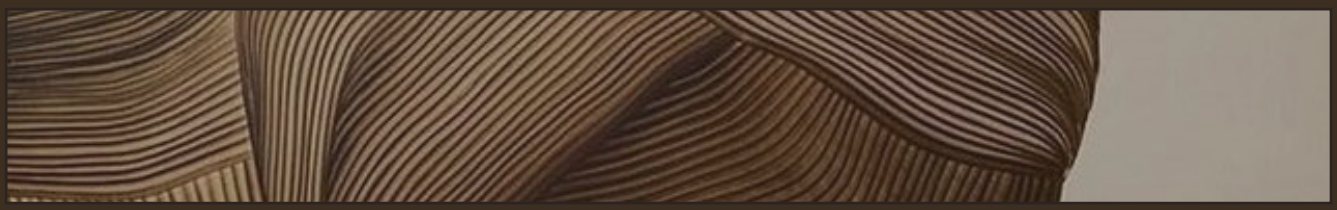
End-to-end accountability

A single point of contact — consistent, informed, and available

We sit between design and delivery so nothing falls through the gap

We own the outcome — and we stand behind it

WHY THIS WORKS FOR YOU



01 Real Estate Agents

The sale is done. What happens next defines how they remember you.

> *"I recommended a designer who missed deadlines and delivered a space the client hated. I nearly lost the relationship — and the next listing."*

Your job ends at handover. But your client's experience of the space is just beginning — and it reflects on you.

When you refer **By Kurators**, you give your client a structured, professionally managed path to a finished home or investment property.
No chaos, no surprises.

You stay the trusted advisor

Not the person who passed them to the wrong team

We manage the process

So you are never pulled into design disputes or delivery issues

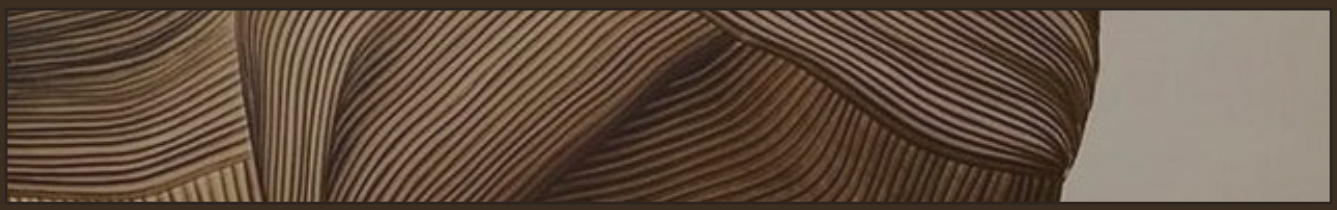
Your client gets a result they are proud of

And associates that outcome with you

Pre-sale staging and design advice available

Adding value to listings before they go to market

WHY THIS WORKS FOR YOU



02 Construction Companies & Builders

Stop inheriting other people's problems

"We were handed an incomplete brief, no design coordination, and a client who kept changing their mind. We took the blame for a project we never had control over."

Bad design briefs cost you time, money, and reputation.

When a project comes through **By Kurators**, the design intent is clear, the scope is documented, and there is a dedicated point of contact for the client, leaving your team to build.

Cleaner briefs

Design documentation is thorough and construction-ready before you mobilise

Fewer client escalations

We manage expectations so disputes don't land on your site

A professional counterpart

Our PMC team coordinates directly with your team on site

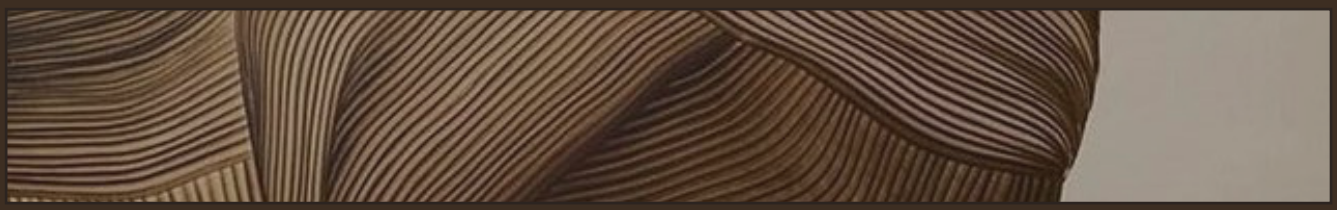
Repeat pipeline

Well-run projects lead to more referrals, in both directions

You build, we manage the client

That is how good projects get built

WHY THIS WORKS FOR YOU



03 Fit-out Companies

Your execution deserves a solid foundation

> *"The client approved the design, then changed it halfway through fitout. No one had documented the original scope. We absorbed the cost."*

Fit-out is where most design projects either succeed or lose their way. When **By Kurators** is involved, the design has been properly curated, the scope agreed, and a PMC team is on the ground to manage the interface between design intent and physical delivery.

Scope clarity before mobilisation

No ambiguity about what is being built

Change management handled professionally

Variations are documented and approved before they hit site

Design coordination on demand

Our team bridges the gap between studio and site

Client-facing escalation is our job

So it never becomes yours

Your work is showcased properly

Photography, documentation, and portfolio material from completed projects

HOW A REFERRAL WORKS

It is straightforward. You identify a client who is planning a design, renovation, or new build project. You make the introduction to **By Kurators**. We take it from there.

01 · You make the introduction
a warm intro by email or phone is all it takes

02 · We meet the client
understand their project, timeline, and brief

03 · We take ownership
design curation, studio selection, and full PMC if required

04 · Your client is looked after
professionally, from first meeting to finished space

05 · You stay informed
we keep you in the loop at key milestones

Once we agree to work together, we formalise a simple referral fee arrangement — so both parties are clear on how the relationship works from day one.

WHO WE ARE

By Kurators, founded by Punit Shah and Khushi Shah — professionals with deep roots in construction, design implementation, and project delivery across the Gulf region.

PUNIT SHAH

Hotel construction, industrial development, and lighting & automation (Lumilife)

Understands how buildings are actually delivered — and where projects go wrong

KHUSHI SHAH

Design implementation across commercial and residential projects at a construction, interior design and fitout firm

Works at the intersection of design intent and on-site reality

Between us, we have the experience to manage a project from creative brief to finished space — and the relationships to ensure the right people are in the right roles throughout. - Khushi Shah

THE SIMPLE CASE FOR REFERRING BY KURATORS

REAL ESTATE AGENT	CONTRACTOR	FIT-OUT COMPANY
Your client gets a result they are proud of. You get the credit.	You get clean briefs, managed clients, and a professional counterpart on site.	You get scope clarity, change management, and a client who arrives on site informed and aligned.

A good referral protects your reputation. A great referral builds it. - Punit Shah

If you have clients who are designing, renovating, or building — and you want to ensure they are in safe hands — we would like to talk.
